

The Red Project

What is the red project ?

This project is about making your own presentation on India.

You will need to search through the website to find out the information you need.

The website has many different facts and figures about India and a large number of pictures which you can copy and place into your own presentation.

Your presentation can be completed using a word-processor, spreadsheets and powerpoint or on paper.

Instructions

- Open your browser window
- Type www.baileybridge.net into the address bar
- Enter the Geography Bridge part of the website
- Work your way through the red project

Your task is to make a presentation about India using ICT or paper.

It should contain at least the following items:

- pictures
- tables
- text
- diagrams
- maps

The presentation will need to show detailed information about;

- location
- population
- climate
- physical features
- life in India

Scope of the presentation

- location – how does this affect climate, vegetation and landscape?
- climate – what factors affect climate and which factors affect each area?
- population – factors affecting population, how India's population has changed and is likely to change over the next few decades?
- what do the pictures indicate about life in India?
- how has India changed economically during the last ten years? – research other books and websites (hint – hi-tech industry)

ICT presentation ideas

- ✓ Use a word-processor to display photographs, diagrams, maps, graphs and charts.
- ✓ Use text next to pictures, diagrams and charts to clearly describe them.
- ✓ Spreadsheets can help you order and calculate figures.
- ✓ Divide your presentation into clear sections.
- ✓ Type your text in a neat and clear font.
